SUMMARY

Self-motivated frontend developer with 3+ years of experience building responsive, scalable web and mobile applications using React.js, Next.js, React Native, Tailwind CSS, TypeScript and Node.js. Proven track record of improving product delivery systems, integrating APIs, optimizing frontend architecture, and leading small teams to success. Passionate about shipping polished UI/UX at scale and solving real-world problems with code.

EXPERIENCE

POLOM (E-commerce Start-up) — Front-End Developer
Remote | Jan 2024 – Present
- Collaborated in building customer-facing e-commerce website and mobile app using Next.js, Tailwind, and React Native.
- Integrated Google Maps API for Delivery App UI & Customer web/app UI: live address suggestions, reverse geocoding, and ETA calculation.
- Optimized product and order component structure, reducing render overhead by 40%.
- Delivered Admin, Rider, Branch UIs with role based controls.
- Transitioned API integration from fetch to TanStack React Query for better caching and loading states.

5Star Company — Front-End Developer
Remote | May 2024 – Nov 2024
- Sole frontend developer maintaining authentication UI, dashboard, and data integration features.
- Integrated REST APIs for login, registration, and data fetching with secure form handling.
- Used Tailwind CSS for building responsive interfaces and UI consistency across views.
- Led small refactor initiative that removed dead code and improved maintainability.

Zuri Bootcamp — Front-End Developer (Internship + Project Phase)
Remote | Feb 2022 – Aug 2022
- Selected for project phase based on performance; led a team project that ranked Top 5 out of 132 teams in building a web project that allows file uploads and metadata extraction.
- Co-developed a full stack project to extract metadata (GPS, timestamps, camera settings) from images, videos, eBooks, and audio files.
- Built dynamic upload interface and metadata result UI using CSS, HTML and vanilla JavaScript
- Built dynamic blog app using Django + frontend template.
- Participated in coding games (JS calculator, Anagram finder) to sharpen logic.

TECHNICAL SKILLS
- **Languages:** JavaScript, Typescript.
- **Frameworks:** React.Js , Zustand, Next.Js , React Native.

- **Tools:** Git, GitHub, Postman, Figma, VSCode.
- **Dev Practices:** API Integration, mobile responsiveness, form validation, performance optimization, debugging.
