PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years shipping production web and mobile apps. Built e-commerce platform at POLOM (Next.js, React Native) serving real users. Reduced render overhead 40%, led team to Top 5/132 at Zuri Bootcamp. Expert in React ecosystem, Google Maps SDK, and API-driven UIs.

EXPERIENCE

POLOM — Frontend Engineer | *Remote* | Jan 2024 – Present

- Built 4 production apps serving real users (Customer Web/Mobile, Driver, Admin, Branch Manager) with role-based controls using Next.js, React Native, TypeScript, TanStack Query (React Query).
- Integrated Google Maps APIs (Autocomplete, Directions, Geocoding) across 20+ screens, enabling automated route optimization and eliminating manual address entry errors through autocomplete validation.
- Reduced component render overhead 40% via memoization and lazy loading; migrated to React Query, reducing initial page load from 4.2s to 1.8s and cutting redundant API calls through request deduplication and caching.
- Managed state with Zustand; implemented Formik validation across checkout, registration, and profile flows

5Star Company — Frontend Developer | *Remote* | May 2024 – Nov 2024

- Built authentication flows (login, registration, 2FA) with React Hook Form; integrated REST APIs for transactions and account management
- Led refactor removing 2,000+ lines of dead code; documented component patterns for team handoff.

Zuri — Frontend Developer & Team Lead | *Remote* | Feb 2022 – Aug 2022

- Led team of 8 to Top 5 finish out of 132 teams building FetchMetadata, file upload platform extracting GPS, timestamps, camera data
- Built upload interface with drag-and-drop; architected Node.js/Express/MongoDB backend; deployed to Render (live at fetch-metadata-app.onrender.com)

PROJECTS

- **ApplyCraft** — AI Job Tracker | apply-craft.vercel.app
Full-stack job tracker with AI-generated outreach. Supabase auth + RLS for data isolation, server-only AI endpoint (no client keys), deployed in 7 days. *Stack: Next.js, Supabase, Tailwind.*
- **ClinVest** — Real Estate MVP | clinvest.vercel.app
Property search with multi-parameter filters, localStorage saved listings syncing across tabs, JSON-LD for SEO. *Stack: Next.js 15, TypeScript, Tailwind.*
- **FetchMetadata** — a Full stack File Metadata Extractor | <https://fetch-metadata-app.onrender.com>

Stack: JavaScript, Node.js, Express, MongoDB, Cloudinary, CSS, HTML.

TECHNICAL SKILLS

Frontend: React.js • Next.js 15 • React Native • Expo • TypeScript • JavaScript (ES6+)

Styling: Tailwind CSS • Responsive Design • Framer Motion

State & Data: TanStack Query (React Query) • Zustand • Redux • Context API

APIs & Tools: REST APIs • Google Maps SDK • Git • Postman • Figma • Vercel • Vite • Webpack • Jest •
React Testing Library.

Backend: Supabase • Firebase

EDUCATION

Lead City University — M.A., Politics and International Relations | 2026

Tai Solarin University of Education — B.A.ED, History | 2023

Udemy — The Complete Web Development Bootcamp | 2022

Zuri — Frontend Development (Top 5/132 teams) | 2022

Cisco Networking Academy — IC3 Certification, Networking & Security | 2020
